

The Men's shed wishes to **WELCOME any Potential** members to come & visit & decide if you want to be part of our shed. The Men's shed has just past 12 months since incorporation (3-6-2015) & is progressing exceptionally well with many friendships & team efforts from all to make it a great place to go too. The aim of our Men's Shed is in line with those of AMSA & the over 1000 men's sheds, which have been established in Australia:

"to focus on the wellbeing & health of men through community development".

The second & larger temporary shed is at 1 Greens road behind the white boat (after 9 months in Adelaide street, Thanks Gary & Helen for use of your garage) which has now been transformed into a work space with tools, machines & benches to allow productive activities for those who want to make items or space for those who just want to sit & discuss whatever pleases them.

The temporary Shed is open from 9am until 3pm on Tuesday & Thursdays & other days as required to finish projects undertaken.

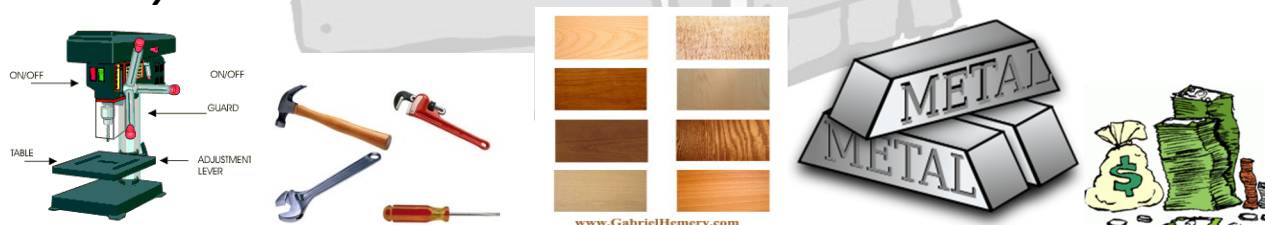

We currently have 38 **members & growing.**

The fee to join is \$30 per year which covers all insurance & running costs.

A new shed is expected to be built on council land behind the Rural Fire Service shed in late 2016; with a licence to use the space negotiated with SCC. We have had significant community support & also applied for several grants to build the new 24mx15m shed. We have raised money from the sale of items we are making & from donations for community projects undertaken by the shed members.

Any monetary donations over \$500 will be tax deductible contact Bob for more information.

We need your Donations to allow us to achieve our Aim's

Anyone wishing to donate machinery, tools, usable materials (i.e. wood, metal etc.) contact Bob.
